

**DATE OF PUBLICATION:**

September 29, 2010

**THIS BULLETIN SUPERSEDES THE FOLLOWING BULLETIN(S):**

NONE

**THIS BULLETIN PERTAINS TO THE FOLLOWING MACHINES:**

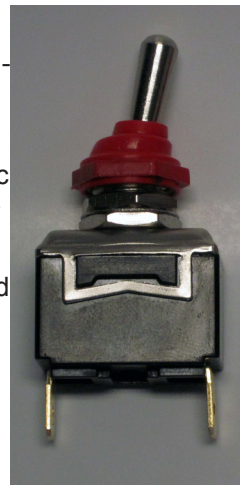

All machines equipped with toggle switches.

**SCOPE OF THIS BULLETIN:**

Improved design of toggle switches and protective boots.

**OVERVIEW:**

On September 1, 2010 we changed to an improved design on the toggle switches used on our machines beginning with Serial Number 57736. The new style uses a 1/2 boot that stands up better to normal usage and is less susceptible to damage from being struck or abraded. The new switch design has a M12 X 1.0 metric threaded barrel that accommodates the new style boot. The new boots will not fit on old switches and old boots will not fit on new switches but the new switches are a direct replacement for the old when paired with a new 1/2 boot.

**NEW STYLE**

**OLD STYLE**

**OLD PART NUMBERS AND NEW PART NUMBERS**

Description	Color	Old Part Number	New Part Number
Switch	N/A	5-892	370-8920
Switch	N/A	7-821	370-8210
Switch	N/A	7-283	370-2830
Switch	N/A	253-283	370-2831
Boot	White	H-01195	H-11195
Boot	Red	H-01196	H-11196
Boot	Yellow	H-01197	H-11197
Boot	Green	H-01198	H-11198
Boot	Blue	H-01199	H-11199
Boot	Black	H-01200	H-11200
Boot	Grey	H-01201	H-11201
