

PCB-623

DATE OF BULLETIN:

02-14-2012

THIS BULLETIN SUPERSEDED BULLETIN(S):

None

MODELS AFFECTED:

ALL EDGE MODELS

MACHINE SYMPTOMS:

Isolators on EDGE machines need to be replaced at the following intervals:

AC Stick Machines: Every 100 hours of use

Battery Machines: Every 250 hours of use

SCOPE OF BULLETIN:

Isolator & eccentric replacement kit availability

MATERIALS REQUIRED:

Appropriate isolator or eccentric Kit

INSPECTION:

AC Machines: AC machines are not equipped standard with an hour meter. One may be ordered as an option and they are field installable. If equipped, the hour meter is installed in the handle.

On all battery EDGE machines there is a separate isolator hour meter. To retain warranty coverage, when this hour meter reaches 250 hours the isolators need to be replaced. The hour meters are located in the following locations:

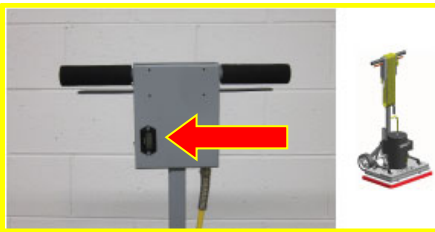

EDGE ISOLATOR KITS

EDGE ECCENTRIC KITS

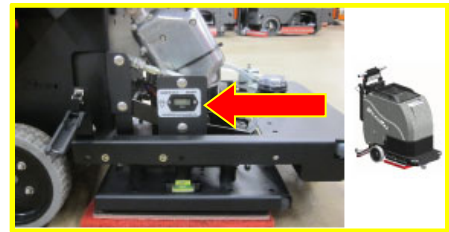

EDGE AC Stick Machine

EDGE DC Stick Machine

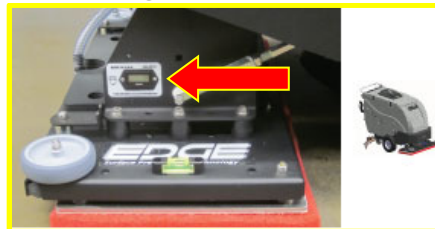

EDGE MicroMag

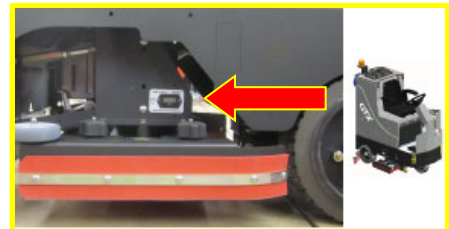

EDGE MiniMag

EDGE Magnum

EDGE GTX

CORRECTION:

Replace the isolator kits at recommended intervals

AVAILABLE KITS:

<u>Part No:</u>	<u>Description</u>
EDGE-7217	Isolator Kit for 20" AC Stick Machines
EDGE-7221	Isolator Kit for 28" AC Stick Machines
EDGE-7209	Isolator Kit for 20" & 24" Battery Scrubbers
EDGE-7210	Isolator Kit for 28" Battery Scrubbers
EDGE-7216	Isolator Kit for 32" Battery Scrubbers
EDGE-7218	Isolator Kit for 28" Battery Stick Machines
EDGE-7219	Isolator Kit for 32" Battery Stick Machines
EDGE-7220	Isolator bracket kit for Auto Scrubbers

PCB-623

In addition to the isolator kits, there are replacement eccentric kits available for these machines.

The eccentric kits include:

Eccentric Assembly, Fasteners, Loctite, Gasket and shaft seal.

The kits for specific machines are as follows:

- EDGE-7211 – Eccentric assembly for ALL 20" EDGE machines
- EDGE-7224 – Eccentric assembly for ALL 24" EDGE machines
- EDGE-7212 – Eccentric assembly for ALL 28" EDGE machines
- EDGE-7213 – Eccentric assembly for ALL 32" Battery EDGE machines
