REVISIONS:

All machines include new yellow steel cord wrap with Delta Q Chargers to easily secure cords while machine is in operation.

Walk Behinds with an Onboard Delta Q Charger feature an internal inhibit switch and a new light on the dashboard of the CC to illuminate when the equipment won't move due to charging.

Riders with an Onboard Delta Q Charger do not feature a new light, but instead trigger an inhibit error code on the LCD when operator is charging unit and trying to drive.
